

Electric Fan Forced Heater 30kW

The Electric Fan Forced Heater provides the user with the ability to blow hot air into an environment without the use of a naked flame. This is particularly important in high risk flammable areas. It is ideal for localised spot heating in large open environments.

Commonly used for parties, markets, workshops, agriculture, for drying purposes or wherever heating is required.

FEATURES

- Fan only Option
- Adjustable Thermostat
- 2 Heat Settings
- Safe Operation
- Easy to move & relocate
- Ability to direct air flow where required

Specifications

Model	EFH.030
Power Supply	415V
Current Consumption	41.71A
Power Connection	5pin 50amp plug

Weight (kg)	30
Dimensions (mm)	652L x 617D x 1018H
Capacity Fan Only	170 Watts
Capacity Heat 1	15 kW
Capacity Heat 2	30 kW

RACE Hire offer complete design, installation and commissioning on their range of equipment, to ensure your job or event runs smoothly to your requirements.

Is on-site power is an issue? We can design and supply that to, from generators, cable and distribution gear to electrical connection's by our qualified electricians.
